List of Conforming Driver Heads

Effective

December 15, 2025

:IMPORTANT:
Driver heads manufactured prior to 1999 are exempt from the requirement of this Condition

The List of Conforming Driver Heads will be updated effective each Monday. Please visit www.usga.org or www.randa.org for the most recent listing.

Please note that additional driver heads will be added to the list on a weekly basis. The effective date of the List of Conforming Driver Heads is provided at the top of each page. To keep your printed list up-to-date, you may print recent updates by using the date field of the on-line searchable database to dynamically print those driver heads added since the effective date of this list.

How to Use The List of Conforming Driver Heads

The List of Conforming Driver Heads identifies the models and lofts of all driver heads that have been submitted for evaluation to The R&A and/or United States Golf Association and have been determined to conform to the Rules of Golf. It is updated every Monday.

Driver heads are listed in alphabetical order by manufacturer or by product name, depending on which PDF list you have printed. Each model is listed as a separate entry with corresponding lofts and identification markings that are essential to determining whether the driver listed is the same as the driver in question. There are sometimes only subtle differences in the markings differentiating two different models of a driver head, e.g. one model may have a degree symbol (conforming) and a similar model could be without a degree symbol (USGA non-conforming or R&A non-conforming in 2008), and those differences vary from manufacturer to manufacturer. As a result, **if all markings of the clubhead do not match exactly to a club that is in question, it may be a different model and you should check with the USGA or The R&A to determine whether it appears there. If you have any question regarding the conformance status of any club, please contact the R&A or USGA for further assistance.**

A link to an image of each driver included on this list is available through the searchable online database by clicking the 'View Photo' link. Please note that only the image of the driver head's sole is provided, therefore, it should only be used for reference purposes. There are often models that have identical sole markings but have different face, crown, toe or heel markings. The sole markings alone are not enough to conclude that the clubhead in question is the model listed.

Product Name	Manufacturer	Lofts	Identification Markings
