

SATURDAY, JUNE 18, 2016 – 5 AM WEATHER FORECAST

We have a beautiful day in store for everyone with mainly sunny skies and Summer-like highs reaching the mid to upper 80s. Winds will be lighter than yesterday eventually picking up out of the northeast and east this afternoon generally between 4-8 mph. As high pressure continues to build over the northeast, Sunday's winds will begin to veer out of the south and southwest at about 6-12 mph by midday. Temps tomorrow will once again be in the mid to upper 80s with lows in the low 60s and dewpoints a few degrees warmer than today. Monday follows the same trend as Sunday but winds will be a little stronger getting into the 8-16 mph range by the early afternoon. Storm chances begin to ramp up later Monday and especially on Tuesday as another cold front looks to impacts the area from the northwest.
