

### SUNDAY, JUNE 19, 2016 – 5 AM WEATHER FORECAST

Looks like a great Father's Day forecast with mostly sunny skies throughout the morning and a mixture of a few high clouds coming in this afternoon. Temps will ramp up fairly quickly getting into the mid 80s by this afternoon with dewpoints expected to stay in the 50s throughout the day. Winds will stay light until mid-morning when they pick up out of the southwest at 5-10mph by lunch and then get into 5-15 mph range by the afternoon. After another quiet night tonight, expect sunshine Monday morning to give way to increasing clouds Monday afternoon with stronger southwest winds. There is a chance of a shower or storm Monday afternoon, but the best opportunity for showers and thunderstorms arrives Monday night. Once this front clears the area, winds will back to the northwest Tuesday morning at 5-15 mph and stay that way throughout the day.
