Championship History

On Oct. 4, 1895, the first U.S. Open Championship was conducted by the United States Golf Association on the nine-hole course of Newport (R.I.) Golf and Country Club.

The first U.S. Open was considered something of a sideshow to the first U.S. Amateur, which was played on the same course and during the same week. Both championships had been scheduled for September but were postponed because of a conflict with a more established Newport sports spectacle, the America's Cup yacht races.

Ten professionals and one amateur started in the 36-hole competition, which was four trips around the Newport course in one day. The surprise winner was Horace Rawlins, 21, an English professional who was the assistant at the host course. Rawlins scored 91-82—173 with the gutta-percha ball.
