

### THURSDAY, JUNE 18, 2015 – 5 AM WEATHER FORECAST

Look for a mixture of sunshine and mid level clouds today with a little more clouds than sun through the first half of the morning, then a little more sun than clouds later this morning into a good portion of the afternoon. Temperatures stayed up overnight in the mid to high 50s and with that milder start, we should be able to reach the mid 70s this afternoon. Winds will be light this morning out of the north early and west late occasionally around 5 mph. Then the winds this afternoon will gradually increase out of the west to around 10 mph with gusts of 15 mph very possible later in the day. There is a 20% chance of a sprinkle with some of these mid level clouds today, but look for a better chance of a shower or sprinkle tonight and Friday. In fact we now have a 60% chance of a shower or sprinkle Friday morning, however not much moisture is expected, if at all. We will see slightly cooler conditions on Friday as well with highs closer to 70 and winds more out of the southwest. Then northerly flow returns over the weekend with more sunshine.
