Quick Quotes

Inbee Park

INBEE PARK: My ball striking wasn't really there. I missed a lot of fairways and greens on the first round, but putting was really good. So I'm satisfied with my putting. I've just got to work on my ball striking a little bit for next few days and hopefully I can hit a lot more fairways and greens.

Q. Your position is good, right? You don't have a lot of people in front of you?

INBEE PARK: It's a good score for the first round definitely. It's only the first round in a major tournament. Under par is always good. Still have a lot of golf to play.

Q. How do you like the golf course? How does it set up for you?

INBEE PARK: It's long. It's wet. It's soft and long. I mean, I would like for it to be running a little bit further and playing a little bit shorter. I'm not the longest hitter. This is the softest green that I have ever played in the U.S. Open for a while. It's different and the greens are tricky. They are softer, have a lot of spike marks and they are slower. It's really different. It definitely has some tough side of it. We've got to hit a lot of long clubs in it and that's the tough part.
