

THURSDAY, JULY 9, 2015 – 5 AM WEATHER FORECAST

Look for some light showers or sprinkles through 7 AM as a miniature version of a warm front passes through our area. Mostly cloudy skies early this morning will give way to partly sunny skies for most of the midday hours with mostly sunny skies even possible for a short time around lunchtime or early afternoon. As we enter the warm sector ahead of this afternoon's storm system, temperatures will warm up into the mid to upper 80s this afternoon with lighter winds this morning becoming breezy/gusty this afternoon. The center of the storm is still forecast to bring heavier rains and storms across the northern half of PA this afternoon, however we will have to watch out for the possibility of some strong to severe storms late today since this is a faster moving system. Showers and storms will be possible after 2 PM with the highest probability of showers and storms from 5 to 8 PM this evening. There may be a few leftover clouds Friday morning, otherwise expect breezy, drier and nicer weather on Friday.
