

## SUNDAY, JULY 10, 2016 – 5 AM WEATHER FORECAST

Temperatures are starting off much cooler this morning around 50, however thanks to drier air today with dewpoints in the 40s to low 50s, we will warm up nicely again this afternoon topping out just past 80 degrees. Light winds early this morning will gradually increase by lunchtime with northwest winds of 10 to 20 mph most of this afternoon across the higher elevations with a high wind gust past 20 mph possible. Down around the clubhouse we should stay more in the 5 to 15 mph range during the afternoon hours. The marine layer was squashed overnight as we slipped onto the back side of the upper level trough well to our north. Low clouds are only now trying to reform around the coast and Bay area, so we could see one or two clouds early this morning, but generally look for lots of luxurious California sunshine today. The trend of less wind and more heat continue Monday and Tuesday as the marine layer tries harder to build back in each morning.
