

TUESDAY, JULY 5, 2016 – 5 AM WEATHER FORECAST

Look for more of the same weather again today as the low level marine layer cloud cover this morning burns off around the same time as yesterday or maybe an hour or two later, 8 – 10 AM. Then we'll be left with lots of glorious sunshine as temps starting out in the 50s top out exquisitely in the upper 70s this afternoon. Southeast winds this morning may gust up around 15 mph across the higher elevations, then look for the speed and direction to vary some this afternoon – however once again today it is beginning to look like the northwest winds around San Jose may stall just barely to our north. The forecast for Wednesday and Thursday features very similar conditions as the overall pattern does not change. Then in the upper levels of the atmosphere a weak trough will swing through north of the Bay Area and that may mix the wind up a bit more out of the northwest.
