

FAN CAMERA/PHOTOGRAPHY POLICY

Written Camera/Photography Policy

We encourage fans to capture and share their U.S. Amateur experience through the use of photography. All photography may only be used for personal photographic use. Stand-alone cameras are only allowed during practice rounds (Saturday and Sunday). Cell phones are permitted during the Championship and camera features may be used. No photography is permitted in the presence of a player from the time he addresses the ball until the completion of his swing.

Video and audio recording and live broadcasting are not permitted at any time with any device.

Violation of the above policy may result in immediate expulsion and loss of ticket privileges for the remainder of the championship.
